

## CELQ NORTH QUEENSLAND - SPECIAL INTEREST GROUP

### BI-MONTHLY SPECIAL INTEREST GROUP

### CONVERSATIONS VIA WEBINAR

The CELQ-NQ Special Interest Group (SIG) is an online group which connects bi-monthly to talk about palliative and end-of-life care. We encourage all health professionals within the Northern Queensland PHN area to grab a tea or coffee and join these conversations. Sessions are held via zoom on the fourth Wednesday bi-monthly (except over the summer break) from 2pm-3pm.

Date	Conversation Topic
25 June 2019	Palliative care and symptom management
28 August 2019	Communication with residents/family, team members and other service providers
23 October 2019	Advance care planning
26 February 2020	Supporting residents and family with grief and loss
29 April 2020	How do we help residents/clients decide 'what matters most' to them?
24 June 2020	Where to gain practical hands on experience with other services providing palliative care
26 August 2020	Palliative care emergencies
28 October 2020	Self-care and self-compassion: looking after yourself

Each SIG conversation session will be facilitated by a member of the Palliative Care Queensland team with a focus on a new topic each conversation. The conversations will include practical examples, case studies and linkages to relevant resources. Participants are encouraged to ask questions and be involved in the conversation, or simply listen and learn from this group of people with a similar interest.
