

Project ECHO

Townsville
Hospital
and Health
Service

Do you work with people with persistent pain?

Project ECHO can support you in your work through case-based learning and topic discussions. Bring your de-identified cases for advice and support. Join our interprofessional community of practice meetings online.

Persistent Pain ECHO Network

1 in 5 people experience persistent pain

Unresolved persistent pain incurs a high risk for long term pain disorders, physical symptoms, and mental health problems.

Thursdays 7:30 – 8:30 am (AEST)

25 February, 25 March, 22 April, 27 May, 24 June, 22 July

Hub

Multidisciplinary team of subject matter experts

Spokes

Participants from different sectors

Community
