# Hepatitis C for Nurse Practitioners

**Date:** Thursday, 29 April 2021 – 6 May 2021  
**Time:** 7:00pm – 9:00pm (AEST)  
**Venue:** Delivered nationally, online via Zoom.

Treatment with direct acting antivirals is easier than ever. This course aims to provide Nurse Practitioners the skills and confidence to diagnose, assess, manage and treat hepatitis C.

This course is designed for Nurse Practitioners with an interest in hepatitis C. The course will be split into two sessions:

**Online Training Session 1:** Thursday 29 April, 7:00pm-9:00pm (AEST)

**Online Training Session 2:** Thursday 06 May, 7:00pm-9:00pm (AEST)

## Learning Objectives

By the end of this training, participants will be able to:

- Describe the risk factors for HCV infection, enabling effective screening and prevention education
- Demonstrate competence conducting and interpreting tests to diagnose HCV
- Recognise risk factors, clinical signs, symptoms and complications of liver disease
- Demonstrate understanding of DAA therapy for the treatment of HCV and competence in selecting appropriate therapy
- Describe recommended on-treatment monitoring and post-treatment follow up protocols
