

Maximising business potential in general practice using CAT4

For practice managers

Webinar

Northern Queensland Primary Health Network (NQPHN) together with PenCS invite practice managers to attend a one-hour webinar with a focus on maximising business potential in general practice using the PenCS clinical auditing tool CAT4.

Learning outcomes:

- understand what reports and filters in CAT4 relate to MBS items
- learn how to work with CAT Plus to increase business potential by getting the most out of the MBS filter in CAT4
- learn how to combine screen searches in CAT4 with MBS item eligibility.

DATE

Tuesday 27 April 2021

TIME

12.30pm–1.30pm
