viral hepatitis & sexual health workforce

HBV s100 Prescriber Course

**Dr George Ostapowicz, Gastroenterologist and Hepatologist,
and Dr Heather McNamee, Experienced GP Prescriber**

Tuesday 4 May 2021, 6.30pm – 8.30pm (AEST)
Tuesday 11 May 2021, 6.30pm – 8.30pm (AEST)
Tuesday 18 May 2021, 6.30pm – 8.30pm (AEST)

Successful completion of this training and assessment will accredit community-based medical practitioners to prescribe s100 highly specialised drugs for the treatment of chronic hepatitis B.

Through a combination of self paced learning and interactive webinars this training course is designed for General Practitioners, other community-based medical practitioners and nurse practitioners to effectively diagnose, manage and treat chronic hepatitis B within their primary care setting.

Participants will learn to:

- Outline the critical role of primary care in the diagnosis, management and treatment of people living with chronic hepatitis B Describe HIV PrEP safety in women during conception, pregnancy, and breastfeeding.
- Plan long-term care, including guideline-based monitoring and hepatocellular carcinoma screening, for patients with chronic hepatitis B. Discuss HIV risk and prevention with women in a culturally appropriate way.
- Select and prescribe first-line antiviral treatment when clinically indicated.
- Identify situations where specialist advice or referral is required.
- Integrate principles of person-centred and culturally competent care into hepatitis B management.
