Activity No. 22529

Mundipharma invites you to a Cancer Pain Management Master Class Webinar

This activity is designed to provide GPs with a comprehensive update on the assessment and management of cancer pain. The activity includes multiple case studies to demonstrate the application of key principles into clinical practice and to support GPs in taking a lead role in caring for patients with cancer pain.

Learning outcomes

After completing this activity, GPs will be able to:

- Conduct a multidimensional assessment of cancer pain.
- Actively co-ordinate the care of patients with cancer.
- Identify and address psychosocial and spiritual factors that influence cancer pain, distress and suffering.
- Develop a multimodal pain management plan for patients with cancer pain.
- Initiate and modify opioid analgesics to optimise the management of severe cancer pain.

This activity will be run over two evenings:

PART A:
Wednesday
19 May 2021
19:00 – 21:15 AEST

PART B:
Wednesday
26 May 2021
19:00 – 21:15 AEST

Please note: To earn your points, you need to participate in both webinars (PART A and PART B) and complete the reinforcement activity. Please ensure you have registered at:

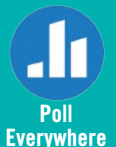

<https://webstreamlive.com/Mundipharma/Au/190521/>
or scan the QR code on this page

To participate in this activity, you will need the **Poll Everywhere** app:

1. Download the app on your smart phone

2. Before the webinar, join the presentation using **georgek161**

British and Australian Psychological
societies and Fellow of the College
of Health Psychologists

Speakers – Evening 1

Dr David Woods

Dr Woods completed his Bachelor of Medicine and Bachelor of Surgery (MBBS) at the University of Notre Dame, Sydney, in 2011.

Dr Woods completed his immediate post-graduate training within the local Hunter New England Health district. He then finished his formal training in anaesthesia with the awarding of the Joint Consultative Committee Certificate of Anaesthesia (JCCA) in 2014. In addition to working in general practice, Dr Woods is a Visiting Medical Officer at Singleton District Hospital and provides anaesthetic services at Muswellbrook District Hospital and Scott Memorial Hospital in Scone.

Dr Rob Paterson

Dr Rob Paterson is a Medical Oncologist with Hunter New England Health and the director of the Medical Oncology Service at Maitland Private Hospital. Completing oncology

training in 2015, he worked as a fellow with Breast Cancer Trials until 2018. He is a general oncologist with research interest in breast, lung and gastrointestinal cancers. He has a passion for improving oncology service provision.

Speakers – Evening 2

A/Prof Malcolm Hogg

Dr Hogg is a past president of the Australian Pain Society and current board member of Pain Australia. He has advised on the development of National Strategic Action Plan for Pain Management and contributed to the

development of the National Pain Service directory. Current Victorian activity includes membership on government committees regarding opioid monitoring (SafeScript) and in the development of models of care for pain services. At Royal Melbourne Hospital, Dr Hogg supervises a coordinated range of services, linking inpatient acute and interventional pain management with out-patient multidisciplinary services, which includes management strategies for chronic cancer and non-cancer pain and telehealth-linked support to clinicians in western Victoria.

Dr Erica Cameron-Taylor

Dr Cameron-Taylor completed her medical degree at the University of Newcastle and completed rural General Practice training. She subsequently undertook advanced training in Palliative Medicine through

the Royal Australasian College of Physicians. For the last seven years she has worked as a staff specialist in the Department of Palliative Care at Calvary Mater Newcastle and has a conjoint appointment at the University of Newcastle. Erica also provides specialist palliative care to patients at Lake Macquarie and Warners Bay Private Hospitals.
