

# Immunisation update

For general practitioners and nurses

**Queensland  
Government**

This update aims to provide general practitioners and nurses with current immunisation information.

## Session overview:

- influenza immunisation
- pneumococcal eligibility
- cold chain management
- vaccine management protocol
- additional vaccines for Aboriginal and Torres Strait Islander children.

*Presenters: (all presenters are Public Health Nurses from Mackay Public Health Unit)*

- Yvonne Vickers
- Natalie Tibbles
- Rachel Waye

## Learning outcomes:

- Gain an understanding of 2021 Influenza Vaccine program.
- Discuss and define the eligibility for funded and non-funded pneumococcal vaccine.
- Describe the correct management and reporting of cold chain breaches.
- Explain the relevance and role of a vaccine management protocol.
- All vaccine service providers to be aware of the importance of additional vaccines for Aboriginal and Torres Strait Islander children.
