## WEEKEND OF WOUNDS 29-31 OCTOBER 2021 | TOWNSVILLE

This conference explores the complex area of managing wounds. The conference will explore the different wound types, best practice management, and dressing selection for best healing outcomes. Take part in a range of workshops on dressing product types, developing a wound formulary (recipe on how to stock your dressing cupboard) and managing infected wounds.

### Conference Learning Outcomes:

- Gain an understanding of the basic wound assessment
- Investigate different dressing products for developing a Wound product formulary
- Explore and participate in hands-on workshops for different dressing products for acute and chronic wounds and managing wound infection
- Discuss Best Practice & Principles for different wound types

### You will learn:

- The different wound types including acute and chronic wounds and the wound healing process
- The clinical requirements of wound assessment
- Best Practice guidelines for wound assessment
- How to manage non-viable tissue with dressings
- The criteria for wound product selection
- The various wound care products available on the market
- That you don't need all the products available to have an effective management strategy
- About acute wounds specifically those that can present in the emergency environment and how acute wounds are managed
- What is wound exudate
- Why does wound exudate occur
- How to manage wound exudate
- In a hands-on environment the various dressing types that can be used to manage wound exudate
- How to identify a wound infection
- The best practice principles for the management of wound Infection
- The when, why, and how of Antimicrobials dressings
- What a wound formulary is and how to create one
- Heaps! – come and join us

### Our Presenter:

#### Louise Webber

Masters of Nursing Science (Nursing Practitioner), BA (Hons), RN

Louise has over 20 years' experience in wound management established her own Private Practice (Wound Therapies) following completion of her Nurse Practitioner in 2014. She has worked across several public hospitals and Community Nurse Settings both in Australia and overseas.

She works collaboratively with several Aged Care Providers, private hospitals and Community Nursing Services and runs 2 specialist wound clinics for a GP Practice and Just Skin (Maroochydore) that specialise in Superficial Radiation Therapy.

Louise was previously an Honorary Clinical Fellow for Australian Catholic University having participated in several research projects leading to publication. She is passionate about wound care and striving for best practice and has participated in several international working groups for Pressure Injuries and Leg ulcers. She is a mum of two teenagers, loves the Sunny coast lifestyle and attempting to play golf!
