

## Virtual Primary Health Pain Education Forum Wednesday 27 July | 5.45pm – 8.20pm

Persistent pain is a common reason for a clinical encounter in primary care, with managing the needs of a person with persistent pain challenging. This Microsoft Teams event will discuss important topics with experts in their field, with participants divided into eight smaller groups to support discussion.

### 5.45pm

#### Welcome address

Dr Helen Brown A/DDG Clinical Excellence Queensland and Dr Marc Walden, Chair QPPCN

### 6.00pm (participants will rotate through rooms)

#### Room 1 | Accessing pain services, CPC, what's offered to patients and support/communicating with GPs
