Build a brighter future for your practice

The last two years have been challenging for all business owners, but especially for general practice owners. On top of caring for your patients during a deadly pandemic, you had a business to manage in very trying conditions.

The Practice Owners Masterclass comprises a one-day interactive workshop built around an existing clinic case study of two GP owners. The workshop aims to step you through the development of a successful business and strategic plan covering the below key areas:

- Development of a business and strategic plan
- Accounting and financials
- Getting the best out of your people and practice staff
- Patients and services
- Doctor payments

You'll come away from this highly practical workshop with real-world solutions and strategies to implement in your practice immediately.

This masterclass is proudly supported by CommBank Health, official banking and financial services partner of the RACGP.
