

## Nurse Practitioner focus group EOI

Northern Queensland Primary Health Network (NQPHN) invites all North Queensland Nurse Practitioners to submit an expression of interest (EOI) to participate in the first 2022 NQPHN Nurse Practitioner focus group.

The Nurse Practitioner focus group will provide a safe and interactive place to have a voice and provide feedback to NQPHN.

The focus group also provides a valuable platform for NQPHN to share:

- » information and intel
- » important reform information
- » outcomes of local PHN work
- » needs of the North Queensland Nurse Practitioner fraternity.

This focus group will facilitate conversations with Nurse Practitioners on what is required in primary care practice to address longstanding issues facing patients, the primary care practice teams, and funders.

This focus group is for all Nurse Practitioners working across primary care in North Queensland and will be a virtual event to ensure that all Nurse Practitioners, no matter where they are located, can participate.

Register to attend by completing the online expression of interest registration form at the QR code below.

### Proposed date

Monday 15 August 2022  
Online via Microsoft Teams
