

Recalls and reminders using Best Practice Software

For general practices

Northern Queensland Primary Health Network (NQPHN) and Train IT Medical invite general practice staff across the NQPHN region to a live one-hour webinar with Train IT Medical Principal and Owner Katrina Otto.

Katrina is one of Australia's leading Practice Management Consultants and a highly respected, approved medical software trainer.

Learning outcomes:

- improve the safety and efficiency of your current recall and reminder system
- understand the difference in your software when you add *clinically significant* recalls or reminders, or *actions*, and understand duty of care in relation to each
- discuss the impact of third-party technology tools on your preventive health and recall management
- use data to provide evidence of improvements in your practice recall and reminder system and meet incentive payment and accreditation standards.
