

2023 Health Education Series

Series 1: Obesity and the Workplace

Series 1: Obesity and the Workplace

When: Thu, 2 March 2023
Time: 7am–8am
Where: 6/1151 Wynnum Rd, Cannon Hill, QLD
Presented by: Dr Chris Cunneen

“Obesity in the workplace is a growing challenge for employers. Yet, obesity is an understandably tricky topic to tackle that many line managers will avoid discussing with staff. It can also easily be treated insensitively or as a stigma among work groups.

Employers need to recognize obesity as a risk factor to ensure a safe workplace environment for the obese worker.”

OccPhyz welcomes you to the 2023 Health Education Series

We are excited to bring back our Occupational Health Education series in 2023!

This 5-part informative series will be covering a range of occupational and environmental health topics.

There are 15 tickets available to attend in person and an unlimited amount to view via livestream. Attendees will be served a light breakfast along with coffee and tea.

The topics will be posted to our socials closer to the date of the event, along with a livestream link.
