The 2024 Workshop Theme: The theme for 2024 will concentrate on "Symptom Management," encompassing a range of topics such as medication usage, communication, non-pharmacological approaches to care, and more.

Requirement: Prior completion of PPC introductory and advanced courses

Overall Learning Aim: To confidently care for children with life-limiting conditions, and their families wherever they reside.

Relevance: The Masterclass is aimed at medical, pharmacists, senior nursing staff (decision makers, prescribers and dispensers) who regularly care for children, young people and their families with palliative & end of life care needs.
