

Neonates in November

1st November 2024

Full day workshop 0800 – 1630hrs
Queensland Children's Hospital Auditorium

Please note this is a face to face event only.

Relevance: The Neonates in November Workshop is an introductory-level training program designed for all healthcare professionals who provide support and care to antenatal/neonatal/infants with palliative care needs or those receiving end-of-life care.

Overall Learning Aim: To confidently care for neonates and infants with life-limiting conditions, and their families.

Learning outcomes

On completion, participants will be able to:

- describe the continuum of neonatal palliative care
- feel confident in implementing a range of symptom management and practical skills
- implement the basics of end of life and after death care for neonates and infants
- develop an understanding of grief, loss and bereavement
- explain the various myths and dilemmas in neonatal and infant palliative care
- develop an individualised plan for sustainable practice
