

Meaningful Mingle

Discover the Power of our Primary Sense Extraction Tool

The Primary Care Engagement (PCE) Team at Northern Queensland Primary Health Network (NQPHN) acknowledges the pivotal role of practice managers and practice administration staff working in general practice and other healthcare services. Our quarterly one hour virtual network meetings aim to facilitate localised connections among practice managers; offering a platform to exchange experiences and knowledge whilst discussing the latest topics impacting general practice in the North Queensland region.

Primary Sense discussion

Join us for a Q&A session tailored for general practices to learn how the Primary Sense tool enhances patient care through data utilisation, whilst supporting practices in quality improvement initiatives and PIP QI requirements. Our expert panel is here to address all your questions. Don't miss out - reserve your spot now!

Thursday 18 April 2024

12pm-1pm
