

Provider Connect Australia™ (PCA™) educational webinar

For healthcare providers

Northern Queensland Primary Health Network (NQPHN) invite healthcare providers interested in learning about Provider Connect Australia™ (PCA™) to tune into this extended 45-minute introductory webinar.

PCA™ is an initiative of the Australian Digital Health Agency to help healthcare service providers update their business information in a single source. This improves the accuracy of healthcare service and practitioner information – while reducing duplication and streamlining notifications.

Healthcare providers can use PCA™ to provide consistent, up-to-date information about healthcare services to insurers, health service directories, communication services, and other key partners in your healthcare service delivery.

Learn more via the [Provider Connect Australia Product Summary](#).

This webinar will be presented by the Australian Digital Health Agency.

Date

Wednesday 18 September
